## June News

We have been active and busy despite spending most of our time at home. June has been the month of Birthdays giving us lots to celebrate. We also had a BBQ that was delicious, lots of games, arts and crafts, and we have continued our Blue Sky Store.

Our garden continues to grow and the seeds that our residents planted last month are still growing too. Our residents have been participating in groups and we have had better attendance which is a plus.

Next month we will show you pictures as we Cruise the Zoo and celebrate Independence Day and much more to come.

# GROUPS

We have started to incorporate virtual tours with our learning groups this last month which has been really fun and helped us feel like we are getting out more. After a learning group on Abraham Lincoln we did a virtual tour of his home. We also did a few virtual tours of Disneyland, the Parade and Radiator Springs after learning about Walt Disney. We also learned about Madame C J Walker, Wangari Maathai, Arizona State and the history of Chocolate, YUM! We did a kindness project and decorated kind words on rocks to put in our front yard. We also went on morning walks, art activities, watered our plants, and a tissue paper craft to name a few activities.
